- **Decorative radiators** ■ Comfortable indoor ventilation
- Heating and cooling ceilings ■ Clean air solutions

Always the best climate for

# Individual Lifestyle.

always the best climate

# The brand with the best indoor climate solutions.

## FOUR COMPLIMENTARY PRODUCT LINES

The broad and clearly structured portfolio from the Zehnder Group is split into four product lines. Consequently, we can provide the right product, the perfect system and the matching service for all types of projects – from new builds to renovations, single-

### Decorative radiators

Our individual decorative radiators make every room – whether at home or in commercial or public buildings – not only warmer, but also more attractive. They combine iconic design with outstanding comfort experience.

### Climate ceiling solutions

The ceiling is the perfect place to supply a room with convenient heating and cooling. Energy-efficient climate via radiant panels work perfectly with our suite of solutions from office to manufacturing spaces.

## BRANDS THAT OFFER VARIETY

**zehnder**

The Zehnder brand offers excellent indoor climate solutions within the product lines of decorative radiators, comfortable indoor ventilation, climate ceiling solutions and clean air solutions.

or multiple-family homes, as well as commercial projects. This variety ensures that our wealth of experience is continuously expanding, providing tangible added value to our customers on a daily basis.

### **Comfortable indoor ventilation**

Our comfortable indoor ventilation is energy-efficient and provides a healthy indoor climate. It promotes the wellbeing of the occupants and increases the value of the property.

### **Clean air solutions**

Air cleaning systems from Zehnder effectively reduce the amount of dust and other particles in the air. The result: clean working environments, significantly improved employee health and enhanced business performance.

Zehnder Group products are frequently awarded prizes for design and innovative technology.

# At Zehnder, heat is everything.

We all rely on heat to live. From the warmth of our mother's lap to the comfortable feel of a well-heated home, heat gives life and makes us feel secure. At Zehnder, we are passionate about heat. Since our company was founded more than 100 years ago, heat has been inspiring us to achieve innovations in radiator technology time and time again. These innovations have become the industry standard – you only have to think of our steel tubular radiators or towel radiators, for example. Yet just as temperature is about much more than measurements in Celsius and heat more than measurements in watts, radiators are about much more than just technology. For Zehnder, they are also decorative pieces which should integrate seamlessly into different living and furnishing styles – something that should be part of everyone's lifestyle. Zehnder products and systems can provide you with the ideal solutions for a comfortable, healthy and energy-efficient indoor climate.

# Decorative radiators for bathrooms

Heat at its most attractive. Decorative radiators from Zehnder make a home warmer and enhance its aesthetics. This is hardly surprising, as they are the work of well-known designers. Performance is of course also a key factor. Owing to Zehnder's ability to combine style and functionality, you can be absolutely sure that our radiators will be up to the mark in your bathrooms, kitchens and cloakrooms, as well as in those areas of the home dedicated to exercise or hobbies.

# Trench heaters

The perfect climate: you can feel it but not see it. Easy to install and virtually invisible after installation, the heaters will fit into your architectural plans with no need for compromise. Zehnder trench heaters make use of physical principles, particularly those which counteract the cold air that falls down large glazed areas. As such, they are ideal for combining with other heat output systems to ensure increased heat supply for short periods.

# Zehnder Terraline

# Zehnder Terraline Neo

# Decorative radiators for heat pump and low temperature systems

NEO stands for “New Energies Optimised”: small yet powerful fans coupled with a heat exchanger boost the heat output and quickly and efficiently bring the room to the desired temperature. One surprising feature is how the radiator produces an incredibly high output yet operates so quietly.

# Zehnder Nova Neo
